

RECORD COPY

Office of Legislative Liaison

13 MAR 1984

NOTE FOR: Deputy Director for Intelligence

SUBJECT : DI Research Program for 1984

Thank you for sending me a copy of the Directorate of Intelligence Research Program for 1984. It is an impressive document that underscores the scope of DI research.

I heartily second your using the program in your meetings on the Hill. Using this as a vehicle for substantive discussion should pay dividends with Members of our Select Committees by increasing their awareness of the fruits of our analytic labors.

/s/ Clair E. George

MEMORANDUM FOR: Director, Office of Legislative Liaison

FROM: Robert M. Gates
Deputy Director for Intelligence

SUBJECT: DI Research Program for 1984

Chair —

1. Attached is the Directorate of Intelligence Research Program for 1984. It is similar in approach to the programs of the past two years.

25X1

2. This program covers only the first nine months of 1984. We will shift to a fiscal year planning basis this October, so that we can better integrate our internal planning effort with our external contracting and the planning cycle of other Intelligence Community elements.

25X1

3. While you may not have time to read this entire program, I urge you at least to leaf through it, particularly those sections on issues and problems of particular interest to you. I would value any comments you have on this program, both on specific research issues and on the overall direction of our efforts. DI office and division chiefs will be getting in touch with appropriate counterparts in other CIA components to discuss the program in greater detail.

25X1

Robert M. Gates
